Local Elections May 10th

Local elections are scheduled to take place on May 10, 2021. Candidates are now listed in the following areas:

1. **Municipal Elections**
2. Regional Health Authorities: **Horizon Health** and **Vitalité**
3. **District Education Council**

For more information on our local elections, please visit **electionsnb.ca**. Here you will be able to find information about where to vote, advanced polls, who is running and much more.

If you are curious about the duties and responsibilities of the Mayor and Councillors, you can find it in section 48 of the **Local Governance Act**. Here is an overview:

The Mayor presides over meetings of council, provides leadership to council, communicates information and recommends actions to council, and speaks on issues of concern to the local government on behalf of council. The Mayor is subject to the direction and control of council and shall abide by the decisions of council.

The council elects a Deputy Mayor who acts in the absence of the Mayor. The Deputy Mayor considers the welfare and interests of the entire town when making decisions, participates in developing and evaluating the policies and programs of the town, participates in meetings of council, council committees and any other body to which he or she is appointed by council. Council also informs the work of staff and the decisions of government through a voting process.

On March 23, 2021, a group of engaged citizens organized and facilitated a virtual 'Open House' where several staff and current Councillors were available to talk about life in local government. You can find the full video of the event **here**.

Mental Health Week, May 3-9, 2021

From May 3-9, #GetReal about how you feel and celebrate the Canadian Mental Health Association's 70th annual Mental Health Week.

Good mental health isn't about being happy all the time. In fact, a mentally healthy life includes the full range of human emotions – even the uncomfortable ones like sadness, fear and anger.

The theme of this year's Mental Health Week is understanding our emotions. Recognizing, labeling and accepting our feelings are all part of protecting and promoting good mental health for everyone.
At GNB, your mental health is important. We would like to remind you that you have access to GNB's Mental Health Toolkit, the COVID-19 Wellness Toolkit , and the resources on the My Wellness page. These toolkits allow you to explore a variety of mental health resources that are readily available.

Get to Know Your Town Staff

The Town of Sackville is lucky to have amazing staff that work hard to make our community a great place to live for all of our residents. That's why we would like to introduce you to our hard working staff. Each month we will feature a different staff member in our newsletter. This month we are pleased to introduce you to Becky Goodwin.

Becky, her boyfriend, Mike and son, Landyn are well known for being a mainstay at the Civic Centre throughout the winter months. Becky volunteers with Sackville Minor Hockey and has held several different positions with the club and has acted at the team manager with Landyn's hockey team since he was 5 years old.

When not at the rink, Becky can be seen spending time outdoors on her snowshoes and going on adventures. In the summer, camping, Maritime daytrips and hitting the kayak at Silver Lake are all favourite pastimes, and of course watching Landyn on the soccer field.

Born and raised in Sackville, Becky was excited when she was given the opportunity to work for the Town as the Assistant Clerk two years ago this month! She earned this new role through hard work and a commitment to education. Becky is a Graduate of Oulton College, is certified in Suicide Alertness and has a Certificate of Recognition from NBCSA, which is a nationally recognized health and safety certification program.

Becky's favourite place in Sackville is the Ogden Loop Trail on Walker Road during the winter and biking the Great Trail (former rail line) to Silver Lake in the summer. When she gets the urge to leave town, Becky enjoys spending time in Tidnish or a road trip to Fundy National Park with a pit stop for some horseback riding at Broadleaf Farms.

Becky considers herself to be very fortunate to be able to raise her son in the Town she grew up and is so proud to call home, and thankful that she gets to work for our Town.

The 2021 Census is Almost Here

Census data are critical to decision makers and Canadians from coast to coast to coast. In addition to informing public policy, census data are vital for planning schools, hospitals, daycare centres, family services, public transportation, and skills training for employment. Furthermore, census data helps non-profit organizations play a significant role in supporting and enriching the lives of Canadians. With census data, Canadian associations can make complex decisions and customize programs for their members and constituents, thereby allowing for service delivery to be adjusted to local needs.

To learn more about the 2021 Census visit **census website** and follow their official **social media accounts**.

The Sackville Memorial Hospital Foundation Launches Operate with Surgical Precision Campaign

The Sackville Memorial Hospital (SMH) Foundation has launched its Operate with Surgical Precision Campaign with an ambitious $200,000 fundraising goal to invest in specialized equipment that will elevate surgical and emergency care.

When you or your loved one needs surgery, complicated or not, you want peace of mind knowing our surgeons have the best tools to do their job. Surgeons performed over 800 procedures last year at the SMH, which due to Covid-19, was lower than usual. In order to be "a cut above" the SMH needs new overhead operating room lights, anesthesia monitoring equipment, a sterilizer for medical device reprocessing and a laparoscopic/arthroscopic tower (camera and monitor). This cutting-edge camera offers sharper images providing truer to life clarity and colour, giving surgeons a better look at the fine details - so important during minimally invasive surgical procedures.

Although the equipment being used right now is fully operational, meeting our needs and completely safe, it is essential that it be replaced to keep up with developing technology.

The SMH is renowned for its outstanding Day Surgery Program offering over 40 different types of surgeries including: arthroscopic repair of ACL, knees and shoulder procedures (Ortho), breast reduction & augmentation, carpal tunnel repair (Plastics), cystoscopy, urinary incontinence repair (Urology), tubal ligation and hysteroscopy (Gynecology), hernia repair, varicose veins stripping, lumpectomy and gallbladder removal (General & Vascular). It is important to note that having state-of-the-art technology makes it easier to recruit and retain surgeons and care for the patients we serve.

In addition to the items for the surgical program, a cardiac telemetry system - a way to monitor a patient's cardiac rhythm remotely and during any patient activity, will also be acquired for the Emergency Department. Campaign Chair Pat Estabrooks, says she is confident that with the help of the Foundation's loyal donors, our goal will be reached and used to strengthen the Sackville Memorial Hospital.

"Your donation today will help our surgeons and the entire health care team provide better care for you, your family, friends and neighbours," says Estabrooks.

If you would like to make a donation, you can contact the Foundation at 364-4205, drop by the hospital, or donate securely on-line at www.smhf.ca/donate.

If the campaign goal is exceeded, the additional funds will be used on the Hospital's other priority needs. Our Hospital. Our Health Care.
