Sackville's COVID-19 Testing Centre

Horizon Health opened a , temporary COVID-19 Assessment Centre in Sackville at the Tantramar Veteran's Memorial Civic Centre, 182 Main St. This site began testing patients for COVID-19 back in January 2021.

The hours of operation are based on need, and the site will remain in place as long as there is sufficient demand for this service.

Like all other COVID-19 Assessment Centres in New Brunswick, visiting the Sackville site for a COVID-19 test requires an appointment. To request an appointment call Tele-Care 811 or visit **www.gnb.ca/coronavirus** and select 'Sackville' in the drop-down menu when choosing a location preference.

Sackville's COVID-19 Vaccination Clinic

The Town of Sackville continues to partner with Vitalité Health to offer a vaccination clinic at the Tantramar Veterans' Memorial Civic Centre.

We are excited to know that Sackville was made a priority to host a vaccination clinic, and by hosting this clinic we are able to make Sackville an even safer place to live in that much faster. We are happy to accommodate Vitalité in this important step towards eradicating the COVID-19 virus.

As of this writing, the vaccination clinic is available to individuals ages 12 and up along with various other categories, including essential workers. To book a COVID-19 vaccination appointment or to find out if you are currently eligible to receive a vaccine, please visit the Government of New Brunswick **website**.

ParticipACTION Community Challenge

During the month of June, Sackville has entered the ParticipACTION Community Better Challenge. We are very excited to have entered this challenge, and we are working hard to become a finalist in hopes of winning the grand prize of $100,000!

To support our goal to be Canada's most active community, the Town has four major events planned (information on the next page), with more spontaneous events popping up throughout the month as well. We would love to see individuals and organizations take part in our events and track their own physical activity as well.

The score is calculated using these three factors:

1. How many people are tracking their minutes
2. How many organizations are hosting events
3. Total physical activity minutes

How do you sign up?:

1. Go to the **ParticipACTION website** and press “sign up now”.
2. Create your account. Be sure to enter a Sackville postal code! This is how ParticipACTION knows to count your minutes towards Sackville’s goal.
3. There are now two options: “Track Organization Minutes” and “Track Personal Minutes”. If you are tracking minutes from an event, click on the organization option, and you will then be able to create your event. It only takes two minutes, all you need to know is how many people were there and how long it was! To track personal minutes, click on the other option and enter your type of activity and how long it took!
4. The great news? You don’t have to track your personal minutes if you download the ParticipACTION app! As long as you have your phone (or other activity tracker such as a Fitbit or and Apple Watch) on you, your minutes will automatically be counted!

How can organizations help?

- Track any practices, games, or other physical activity minutes on the ParticipACTION website.
- Come to our events! We will be sure to have something for everyone.
- Track your personal minutes on the ParticipACTION app.

If you have any questions or need help tracking or setting up activities, please contact Carson at recstudents@sackville.com.

The Sackville Memorial Hospital Foundation Launches Operate with Surgical Precision Campaign

The Sackville Memorial Hospital (SMH) Foundation has launched its Operate with Surgical Precision Campaign with an ambitious $200,000 fundraising goal to invest in specialized equipment that will elevate surgical and emergency care.

When you or your loved one needs surgery, complicated or not, you want peace of mind knowing our surgeons have the best tools to do their job. Surgeons performed over 800 procedures last year at the SMH, which due to Covid-19, was lower than usual. In order to be "a cut above" the SMH needs new overhead operating room lights, anesthesia monitoring equipment, a sterilizer for medical device reprocessing and a laparoscopic/arthroscopic tower (camera and monitor). This cutting-edge camera offers sharper images providing truer to life clarity and colour, giving surgeons a better look at the fine details - so important during minimally invasive surgical procedures.

Although the equipment being used right now is fully operational, meeting our needs and completely safe, it is essential that it be replaced to keep up with developing technology.

The SMH is renowned for its outstanding Day Surgery Program offering over 40 different types of surgeries including: arthroscopic repair of ACL, knees and shoulder procedures (Ortho), breast reduction & augmentation, carpal tunnel repair (Plastics), cystoscopy, urinary incontinence repair (Urology), tubal ligation and hysteroscopy (Gynecology), hernia repair, varicose veins stripping, lumpectomy and gallbladder removal (General & Vascular). It is important to note that having state-of-the-art technology makes it easier to recruit and retain surgeons and care for the patients we serve.

In addition to the items for the surgical program, a cardiac telemetry system - a way to monitor a patient's cardiac rhythm remotely and during any patient activity, will also be acquired for the Emergency Department. Campaign Chair Pat Estabrooks, says she is confident that with the help of the Foundation's loyal donors, our goal will be reached and used to strengthen the Sackville Memorial Hospital.

"Your donation today will help our surgeons and the entire health care team provide better care for you, your family, friends and neighbours," says Estabrooks.

If you would like to make a donation, you can contact the Foundation at 364-4205, drop by the hospital, or donate securely on-line at www.smhf.ca/donate.

If the campaign goal is exceeded, the additional funds will be used on the Hospital's other priority needs. Our Hospital. Our Health Care.
